## Biological Sciences

Biological Sciences is an appropriate major for students wishing to pursue a career in secondary-school biology education, a pre-professional human-health curriculum, or an interdisciplinary program in ecology. Students in the major must choose one of these specializations to complete their degree. The Biological Sciences major provides interdisciplinary training for specific career paths in the life sciences. The curriculum is drawn from the resources of four life-science disciplines (Microbiology, Physiology, Plant Biology, and Zoology), each of which has its own undergraduate degree.
Students with a major in Biological Sciences may not select one of the four life-science areas as a minor, and students electing to pursue a double major may not use more than 11 semester hours of biological sciences courses to satisfy the requirements for both majors. In addition to biological sciences courses, students are required to take courses in physical sciences and mathematics.
Students planning a major in Biological Sciences should consult with the Director of the School of Biological Sciences for program information and assignment to a program for faculty mentoring. Students cannot repeat a majors course or its equivalent in which a grade of $B$ or better was earned, without consent of the Director of the School of Biological Sciences.

## Bachelor of Science (B.S.) Biological Sciences (School of Education)

## Biology Education Specialization

This specialization prepares students for certification as secondary-school biology teachers. Course requirements match content areas specified by the Illinois State Board of Education for teacher licensure in science with a designation in biology. The degree is awarded by the School of Education, but is taught collaboratively between the School of Education and the School of Biological Sciences.

## Bachelor of Science (B.S.) Biological Sciences (School of Biological Sciences)

## Biomedical Science Specialization

Designed for Biological Sciences majors planning careers as biomedical researchers, chiropractors, dentists, medical doctors, optometrists, pharmacists, physical therapists, physician assistants, or podiatrists. Pre-professional students must register with the College of Agricultural, Life and Physical Sciences Pre-Health Professions Advisement Office.

${ }^{1}$ Students must have a grade point averages of 2.0 or better in these biological science requirements. Satisfies the three-hour University Core Curriculum Group II Science requirement.
${ }^{2}$ Students must have a grade point averages of 2.0 or better in these biological science requirements.
${ }^{3}$ Satisfies the three-hour University Core Curriculum Group I Science requirement.
${ }^{4}$ Satisfies the three-hour University Core Curriculum Mathematics requirement. Students should consult with the Pre-Health Professions Advisement Office about additional mathematics recommendations for particular programs.
${ }^{5}$ Students must have a grade point averages of 2.0 or better in these biological science requirements.
${ }^{6}$ Supportive skills courses are not required for students with three years of foreign language in high school, but computer science and technical writing courses are recommended.
${ }^{7}$ Students are strongly encouraged to obtain research experience under the supervision of a faculty mentor. To prepare for an undergraduate research project, students should consider enrolling in UNIV 301A. Credit for research experience can be obtained by enrolling in MICR 490, PHSL 492, PLB 493A-C, or ZOOL 492.

## Ecology Specialization

Ecology is an important topic for students wishing to pursue careers in any aspect of the natural sciences, including environmental science, ecosystem management, teaching, and basic research. The track in ecology is also appropriate for students planning to pursue graduate studies in the natural sciences. Students pursuing the Ecology track can specialize in Environmental Studies by selecting the corresponding minor.

${ }^{2}$ Satisfies the three-hour University Core Curriculum Group II Science requirement.
${ }^{3}$ Satisfies the three-hour University Core Curriculum Group I Science requirement.
${ }^{4}$ Satisfies the three-hour University Core Curriculum Mathematics requirement.
${ }^{5}$ Students must have a grade point average of 2.0 or better in these requirements for biological sciences.
${ }^{6}$ The supportive skills requirement may also be met by one of the following: (a) completing three years of one language in high school with a grade of C or better; or (b) earning eight credit hours of 100-level course in one language by proficiency examination.

## Biological Sciences Minor

A minor in Biological Sciences consists of a minimum of 21 credit hours and must include BIOL 211, BIOL 212, BIOL 213 (12 credit hours), and nine credit hours of BIOL 304, BIOL 305, BIOL 306, BIOL 307, BIOL 409 or BIOL 415. A student with a major in one of the four life sciences may not take a minor in Biological Sciences. Program must approve all minors.

## Technology Fee

The College of Agricultural, Life, and Physical Sciences assesses undergraduate majors a technology fee of $\$ 4.58$ per credit hour up to 12 credit hours. The fee is charged Fall and Spring semester.
