Health Care Management Requirements

The Health Care Management (HCM) major provides coursework and experience across the spectrum of health care supervision and management. Many Health Care Management graduates obtain supervisory and administrative positions in various health and medical facilities such as hospitals, nursing homes, public health departments, health insurance companies, or physician practices. Other graduates successfully complete graduate programs in a variety of business or health-related areas of study. The Bachelor of Science degree in Health Care Management accommodates beginning students as well as students who have professional preparation in health-oriented fields from colleges and universities, technical institutes, community colleges, proprietary institutions or military schools. Graduates of diploma programs also may be eligible for admission. Students in health care education build upon their background through a combination of major core courses, electives within HCM, approved electives and the SIU University Core. The HCM program is certified by the Association of University Programs in Health Administration (AUPHA).

Students in the major must meet with the HCM Academic Advisor to plan their courses of study. Prospective students may complete their University Core Curriculum requirements and career electives at approved institutions, provided that four-year school and residence requirements are met.

Completing courses at any accredited college or university may satisfy the 41-hour University Core Curriculum requirements; credit received through CLEP, USAFI, DANTES; or through proficiency examinations. The Capstone Option is available to students who have obtained a business or health care-related Associate in Applied Science degree or its equivalent, and who have a GPA of at least 2.3 on a 4.0 scale (SIU calculation) on all work prior to the completion of the Associate in Applied Science degree. For more information please view the Capstone Option section.

Students may apply for credit toward degree completion for previous work experience (HCM 258) or educational and occupational experience (HCM 259). Credit is established by the HCM Academic Review Committee. This committee meets once during the spring and once during the fall. No summer submissions are accepted. Application for credit should be made by contacting the HCM Academic Advisor no later than the end of the student’s first semester or no later than after 12 semester hours of completed HCM coursework. Submissions not following these guidelines will not be considered.

Students may request Individual Study opportunities (HCM 299 or HCM 499) through the HCM Academic Advisor. Approval to supervise an Individual Study is at the discretion of the HCM Faculty member that typically teaches the class on-campus. Students need to submit their request for an Individual Study in writing, to the HCM Academic Advisor by the 6th week of the semester PRIOR to the semester in which the student wishes to complete the Individual Study. The Academic Advisor will forward the student’s request to the Program Director for distribution to the appropriate Faculty member for consideration.

In addition to University requirements, students must successfully complete all HCM core courses with a grade of C or higher prior to completing their required HCM 422 internship. Students receiving lower than a C in any HCM core course can only repeat that course once with the exception of HCM 422 which cannot be repeated if failed unless special circumstances apply as determined by the HCM Academic Review Committee. Students must maintain a minimum GPA of 2.3 within the Health Care Management major for graduation. Students receiving a grade lower than a C twice in any individual core HCM course and those who fall below a 2.3 GPA for two subsequent semesters are immediately dropped from the HCM program due to lack of academic performance.

Students participating in internships may be required to undergo a criminal background check and drug screening. Students who do not satisfactorily pass the background check and drug screening may find it difficult to secure an internship in the field of health care and may be removed from the HCM program unless special circumstances apply as determined by the HCM Academic Review Committee. The Internship requirement cannot be waived. Students will initiate and complete the processes involved with internship site selection and applicable SIUC approval processes. Internship hours cannot begin...

Minor in Health Care Management

The minor in Health Care Management (HCM) is designed to prepare undergraduate students interested in health care management with the skills and knowledge to prepare for graduate study or work in the health care field. A minor requires 18 hours of HCM course work at the 300-level or above including both HCM 360 and HCM 364. A "C" or better is required in all HCM core courses taken, and at least 12 semester hours must be completed at SIU. All prerequisites must be satisfied for classes selected.

Students must consult the HCM Academic Advisor in the School of Allied Health to declare a minor.

Certificate in Long Term Care

The Certificate of Completion in Long Term Care is designed for students with an interest in Long Term Care (LTC), who wish to sit for the Illinois Nursing Home Administrators Licensure Examination. As part of the eligibility requirements for this exam, students must complete the four courses below:

HCM 364-Organizational Behavior in Healthcare Organizations and HCM 385-Health Care Finance and HCM 390-Human Resources in Healthcare and HCM 413-Long Term Care Administration and
In addition to the four HCM courses listed above, the student must also complete one of the following courses below:
HED 440 or GRON 440-Health Issues in Aging
REHB 405 or GRON 405-Introduction to Aging and Rehabilitation
REHB 446 or GRON 446-Psychosocial Aspects of Aging

Note: Eligibility requirements, as published by the Illinois Department of Professional Regulation, are subject to change without notification.

Catalog Year Statement:
Students starting their collegiate training during the period of time covered by this catalog (see bottom of this page) are subject to the curricular requirements as specified herein. The requirements herein will extend for a seven calendar-year period from the date of entry for baccalaureate programs and three years for associate programs. Should the University change the course requirements contained herein subsequently, students are assured that necessary adjustments will be made so that no additional time is required of them.
