Nursing..... 1

Nursing

The mission of the Bachelor of Science in Nursing (B.S.N.) Program through Southern Illinois University Carbondale (SIUC) is to prepare bachelor level Registered Nurses who value and strive to be leaders in professional roles and contribute to continuing the growth of the Registered Nurse profession through education and commitment to improving health care of the people and communities we serve. Priorities of the program will include:

- Provide the highest quality academic program and experiential teaching by incorporating evidence-based practice and research into all aspects of the curriculum to produce competent health care professionals.
- Graduates of the Bachelors of Science in Nursing degree will be prepared to assist physicians and other healthcare providers who practice in the state of Illinois and the surrounding region.
- Provide specialized nursing services to the citizens, students (via education), state, region, and country.

The Bachelor of Science Nursing (B.S.N.) program has three tracks and each has their own admission requirements.

Freshman applicants:

- Submit an undergraduate application to SIUC at admissions.siu.edu/apply; select Nursing from the major drop-down box. The Nursing Program utilize a competitive admission process and admission to SIUC does not guarantee admission to the Nursing Program. Nursing applicants are placed in an applicant pool and the School of Health Sciences notifies students once they are accepted to the Nursing Program. The selection process begins in the first week of December annually.
- Register for and take the HESI-A2 Admission Assessment. Detailed instructions are available on the Nursing Homepage at <https://sah.siu.edu/undergraduate/nursing/>. Follow the instructions carefully. Failure to carefully follow instructions could result in SIUC BSN program being unable to access your test scores.

Sophomore or transfer applicants:

- Submit an undergraduate application to SIUC at admissions.siu.edu/apply; select Nursing from the major drop-down box. The Nursing Programs utilize a competitive admission process and admission to SIUC does not guarantee admission to the Nursing Program. Nursing applicants are placed in an applicant pool and the School of Health Sciences notifies students once they are accepted to the Nursing Program. The selection process begins in the first week of December annually.
- Ensure your eligibility to apply to the nursing program by reviewing the pre-requisites listed below.
- Make an appointment with the Nursing Program Advisor at NURSINGadvisement@siu.edu.
- Verify a cumulative GPA of 3.0
- Verify completion of pre-requisite courses or registered to complete pre-requisite courses with a C or higher by end of summer session preceding fall nursing courses.
 - AH 105 - Medical Terminology
 - MICRO 201 – Elementary Microbiology
 - HND 101 – Personal Nutrition
 - CHEM 140A or CHEM 200/CHEM 201 – Chemistry or Intro to Chemical Principles/Gen. Chemistry Lab
 - PHSL 240A and PHSL 240B - Anatomy & Physiology for Nursing I and II
 - MATH 108 or MATH 106 - College Algebra

- Register for and take the HESI-A2 Admission Assessment. Detailed instructions are available on the Nursing Homepage at <https://sah.siu.edu/undergraduate/nursing/>. Follow the instructions carefully. Failure to carefully follow instructions could result in SIUC BSN program being unable to access your test scores.

Accelerated BSN applicants:

- Submit an undergraduate application to SIUC at admissions.siu.edu/apply; select Nursing from the major drop-down box. The Nursing Programs utilize a competitive admission process and admission to SIUC does not guarantee admission to the Nursing Program. Nursing applicants are placed in an applicant pool and the School of Health Sciences notifies students once they are accepted to the Nursing Program. The selection process begins in the first week of December annually.
- Ensure your eligibility to apply to the nursing program by reviewing the prerequisites listed below.
- Make an appointment with the Nursing Program Advisor at NURSINGadvisement@siu.edu.
- Verify a cumulative GPA of 3.0
- Verify completion of a minimum of 70 credit hours
- Completion of pre-requisite courses or registered to complete pre-requisite courses with a C or higher by end of summer session preceding fall nursing courses, with * courses less than 5 years old.
 - Intro to Psychology
 - College Algebra
 - Anatomy & Physiology I (or Anatomy)*
 - Anatomy & Physiology II (or Physiology)*
 - Organic Chemistry*
 - Microbiology*
 - Nutrition
 - Medical Terminology
 - HCM 310 (prerequisite to HCM 340), Healthcare Services & the Consumer
 - All University Core Curriculum (UCC) must be complete
- Register for and take the HESI-A2 Admission Assessment. Detailed instructions are available on the Nursing Homepage at <https://sah.siu.edu/undergraduate/nursing/>. Follow the instructions carefully. Failure to carefully follow instructions could result in SIUC BSN program being unable to access your test scores.

Bachelor of Science Nursing (B.S.N.) in Nursing

B.S.N. Nursing

The Bachelor of Science degree in Nursing is a 120 credit hour program consisting of 39 credit hours of University Core Curriculum requirements, and 81 credit hours of combined nursing and prerequisite courses. Students may be required to purchase and develop an account within a clinical management system for clinical placement. The baccalaureate degree program in nursing at Southern Illinois University Carbondale is accredited by the Commission on Collegiate Nursing Education.

Capstone Option for Transfer Students

The SIU Capstone Option may be available to eligible students who have earned an associates degree or the equivalent. The Capstone Option reduces the University Core Curriculum requirements from 39 to 30 hours, therefore reducing the time to degree completion. See the Capstone Option section for more information on this option.

Nursing Courses

NUR200 - Basic Principles of Nursing This course is an introduction into the nursing profession. Professional conduct, clinical/internship expectancies and expectations are discussed. Students learn common nursing practices as well as the core concepts of nursing. Prerequisites: AH 105, PHSL 240A,B or equivalent; Restricted to NUR majors. Credit Hours: 1

NUR300 - Fundamentals of Nursing This course introduces the basic nursing concepts such as physiologic and safety needs, physical assessment, and fundamental nursing skills. Students are to apply communication, assessment and nursing skills while caring for the needs of clients in diverse populations. Must be taken concurrently with NUR 300L. If NUR 300L is dropped, then NUR 300 must be dropped. Prerequisites: AH 105, and A&P 1 and 2 or equivalent; Restricted to NUR majors. Course fee for Elsevier learning and testing solutions: \$1,026.33. Credit Hours: 3

NUR300L - Fundamentals of Nursing Lab This course is the laboratory to accompany NUR 300. This course introduces the basic nursing concepts such as physiologic and safety needs, physical assessment, and fundamental nursing skills. Students are to apply communication, assessment and nursing skills while caring for the needs of clients in diverse populations. Must be taken concurrently with NUR 300. If NUR 300 is dropped, then NUR 300L must be dropped. Prerequisites: AH 105, and A&P 1 and 2 or equivalent. Restricted to NUR majors. Credit Hours: 2

NUR310 - Clinical Theory in Nursing This course introduces the student to the foundational clinical concepts in nursing. The social, cultural, legal and ethical context of nursing practice is examined throughout the course. Students will explore various historical and current trends associated with nursing as well as the role of science, evidence, theory, and ethics in nursing. Prerequisites: AH 105, PHSL 240A,B or equivalent; Restricted to NUR majors. Credit Hours: 3

NUR320 - Health Assessment This course focuses on utilizing the nursing process as a holistic approach to assessment. This includes nursing of individuals and families across the lifespan. Developmental and growth milestones will be assessed for normal development and compared to the acutely and chronically ill. Students will use critical thinking and diagnostic reasoning skills to assess information regarding patient data and identifying patient diagnosis. Emphasis is placed on developing physical examination skills, obtaining health histories from patients, and performing safe nursing care to meet basic healthcare needs in the human life cycle. Must be taken concurrently with NUR 320L. If NUR 320L is dropped, then NUR 320 must be dropped. Prerequisites: NUR 200, 300, and 310 with grades of C or better; Restricted to NUR major. Lab fee: \$150. Credit Hours: 3

NUR320L - Health Assessment Lab This course is the laboratory to accompany NUR 320. This course focuses on utilizing the nursing process as a holistic approach to assessment. This includes nursing of individuals and families across the lifespan. Developmental and growth milestones will be assessed for normal development and compared to the acutely and chronically ill. Students will use critical thinking and diagnostic reasoning skills to assess information regarding patient data and identifying patient diagnosis. Emphasis is placed on developing physical examination skills, obtaining health histories from patients, and performing safe nursing care to meet basic healthcare needs in the human life cycle. Must be taken concurrently with NUR 320. If NUR 320 is dropped, then NUR 320L must be dropped. Prerequisites: NUR 200, 300, and 310 with grades of C or better; Restricted to NUR major. Credit Hours: 1

NUR325 - Pathophysiology This course provides the student with knowledge of the basic mechanisms involved in the pathophysiological processes. Functions of the gastrointestinal, urinary, respiratory, cardiac, endocrine, neurological and musculoskeletal systems are emphasized. The impact of age, gender, genetics, genomics, life style, and the environment are applied to various pathophysiological states. Restricted to NUR majors. Credit Hours: 3

NUR330 - Child-rearing Practices in Nursing This course uses a family-oriented approach to the health care needs of infants, children, and adolescents. The course emphasizes the health problems associated with these groups with relation to the family dynamic. The student will relate concepts and principles related to the health-illness continuum with respect to the wellness and health of the children and their families. Must be taken concurrently with NUR 330C. If NUR 330C is dropped, then NUR 330 must be dropped. Restricted to NUR majors that have successfully passed NUR 200, 300, 310, 320, and 345 with a C or higher. Lab fee: \$150. Credit Hours: 2

NUR330C - Child-rearing Practices in Nursing Clinical This course is the clinical to accompany NUR 330. This course uses a family-oriented approach to the health care needs of infants, children, and adolescents. The course emphasizes the health problems associated with these groups with relation to the family dynamic. The student will relate concepts and principles related to the health-illness continuum with respect to the wellness and health of the children and their families. Must be taken concurrently with NUR 330. If NUR 330 is dropped, then NUR 330C must be dropped. Restricted to NUR majors that have successfully passed NUR 200, 300, 310, 320, and 345 with a C or higher. Credit Hours: 1

NUR335 - Maternal/Neonatal Nursing This course will orientate students to the nursing process in caring for women and their families in association with reproductive health issues that are experienced in a variety of clinical settings. Consideration is also given to common complications that occur in the childbearing cycle. Must be taken concurrently with NUR 335C. If NUR 335C is dropped, then NUR 335 must be dropped. Restricted to NUR majors that have successfully passed NUR 200, 300, 310, 320, and 345 with a C or higher. Lab fee: \$150. Credit Hours: 3

NUR335C - Maternal/Neonatal Nursing Clinical This course is the clinical to accompany NUR 335. This course will orientate students to the nursing process in caring for women and their families in association with reproductive health issues that are experienced in a variety of clinical settings. Consideration is also given to common complications that occur in the childbearing cycle. Must be taken concurrently with NUR 335. If NUR 335 is dropped, then NUR 335C must be dropped. Restricted to NUR majors that have successfully passed NUR 200, 300, 310, 320, and 345 with a C or higher. Credit Hours: 1

NUR345 - Pharmacology/Pharmacotherapeutics in Nursing This course introduces students to pharmacology and provides them with the foundation for medication administration. Emphasis is on drug therapy that is based on concepts of nursing and drug classifications and characteristics. Drug pharmacokinetics, metabolism, excretion and action sites are discussed. The student will learn drug dosages and limitations as well as how to apply the nursing process to the patient receiving drugs in various clinical situations. Prerequisites: NUR 200, NUR 300, and NUR 310 with grades of C or better; Restricted to NUR majors. Credit Hours: 3

NUR400 - Adult Nursing This course introduces students to nursing care for adults who experience complex health problems. There is an emphasis placed on knowledge and evidence-based clinical findings. The foundation of this course is to improve patient health and emphasize the importance of delivering care safely. The course emphasizes health responses from fluid and electrolyte imbalance, digestion, hormone regulation, oxygenation, ventilation, immunology, cellular proliferation, tissue perfusion and skin function. Must be taken concurrently with NUR 400C. If NUR 400C is dropped, then NUR 400 must be dropped. Restricted to NUR majors that have successfully passed NUR 200, 300, 310, 320, and 345 with a C or higher. Course fee for Elsevier learning and testing solutions: \$1,026.33. Credit Hours: 4

NUR400C - Adult Nursing Clinical This course is the clinical to accompany NUR 400. This course introduces students to nursing care for adults who experience complex health problems. There is an emphasis placed on knowledge and evidence-based findings. The foundation of this course is to improve patient health and emphasize the importance of delivering care safely. The course emphasizes health responses from fluid and electrolyte imbalance, digestion, hormone regulation, oxygenation, ventilation, immunology, cellular proliferation, tissue perfusion and skin function. Must be taken concurrently with

NUR 400. If NUR 400 is dropped, then NUR 400C must be dropped. Restricted to NUR majors that have successfully passed NUR 200, 300, 310, 320, and 345 with C or higher. Credit Hours: 1

NUR405 - Geriatric Nursing This course focuses on nursing care for geriatric patients who experience complex health problems. There is an emphasis placed on knowledge and evidence-based clinical findings specific for geriatric patients. The foundation of this course is to improve patient health and emphasize the importance of delivering care safely. The course emphasizes the health response and intervention for geriatric patients who are aging and experiencing chronic health problems, functional losses and frailty. Must be taken concurrently with NUR 405C. If NUR 405C is dropped, then NUR 405 must be dropped. Restricted to NUR majors that have successfully passed NUR 200, 300, 310, 320, and 345 with a C or higher. Lab fee: \$150. Credit Hours: 3

NUR405C - Geriatric Nursing Clinical This course is the clinical to accompany NUR 405. This course focuses on nursing care for geriatric patients who experience complex health problems. There is an emphasis placed on knowledge and evidence-based clinical findings specific for geriatric patients. The foundation of this course is to improve patient health and emphasize the importance of delivering care safely. The course emphasizes the health response and intervention for geriatric patients who are aging and experiencing chronic health problems, functional losses and frailty. Must be taken concurrently with NUR 405. If NUR 405 is dropped, then NUR 405C must be dropped. Restricted to NUR majors that have successfully passed NUR 200, 300, 310, 320, and 345 with a C or higher. Credit Hours: 1

NUR410 - Psychiatric/Mental Health Nursing This course applies the student's knowledge of the nursing process in caring for individuals and families with mental health issues. Emphasis is placed on those individuals, families and groups to implement professional relationships based on the student's knowledge of psychopathology. Must be taken concurrently with NUR 410C. If NUR 410C is dropped, then NUR 410 must be dropped. Restricted to NUR majors that have successfully passed NUR 200, 300, 310, 320, and 345 with a C or higher. Lab fee: \$150. Credit Hours: 3

NUR410C - Psychiatric/Mental Health Nursing Clinical This course is the clinical to accompany NUR 410. This course applies the student's knowledge of the nursing process in caring for individuals and families with mental health issues. Emphasis is placed on those individuals, families and groups to implement professional relationships based on the student's knowledge of psychopathology. Must be taken concurrently with NUR 410. If NUR 410 is dropped, then NUR 410C must be dropped. Restricted to NUR majors that have successfully passed NUR 200, 300, 310, 320, and 345 with a C or higher. Credit Hours: 1

NUR415 - Adult Nursing II Supervised work experience in a professional setting, which allows selected specialized care in an area to enhance skills. This selected clinical experience allows for additional assessment, intervention and care that will be unique to the populations of the selected area of the internship. This course hosts a seminar at the beginning and end of the internship with online course work, and 64 clinical hours completed with an approved preceptor. Must be taken concurrently with NUR 415C. If NUR 415C is dropped, then NUR 415 must be dropped. Restricted to NUR majors that have successfully passed NUR 200, 300, 310, 320, and 345, 325, 330, 335, 400, 405, 410, and 425 with a C or higher. Course fee for Elsevier learning and testing solutions: \$876.33. Credit Hours: 2

NUR415C - Adult Nursing II Clinical This course is the clinical to accompany NUR 415. Supervised work experience in a professional setting, which allows selected specialized care in an area to enhance skills. This selected clinical experience allows for additional assessment, intervention and care that will be unique to the populations of the selected area of the internship. This course hosts a seminar at the beginning and end of the internship with the online course work, and 64 clinical hours completed with an approved preceptor. Must be taken concurrently with NUR 415. If NUR 415 is dropped, then NUR 415C must be dropped. Restricted to NUR majors that have successfully passed NUR 200, 300, 310, 320, and 345, 325, 330, 335, 400, 405, 410, and 425 with a C or higher. Credit Hours: 1

NUR425 - Nursing Applications to the Fundamentals of Therapeutic Nutrition This course is designed to help nurses understand patient nutrition. Considerations for diabetes, age, lifestyle, etc. are taught. Dietary choices for chronic disease prevention on a national and global scale are discussed. Physiologic processes and function are covered focusing on fluid-electrolyte balance and the six classes of nutrients. Restricted to NUR majors. Credit Hours: 2

NUR435 - Nursing Leadership Internship Students will perform a nursing leadership internship in a real world setting. Students must participate in the wide variety of tasks associated with nurses serving in a leadership role. Sample topics include budgeting and finance, workforce scheduling, and regulation compliance. This course hosts a seminar at the beginning and end of the internship, online coursework, and 64 clinical hours completed with an approved preceptor after the initial seminar and concluded prior to the final seminar. Must be taken concurrently with NUR 435C. If NUR 435C is dropped, then NUR 435 must be dropped. Restricted to NUR majors that have successfully passed NUR 200, 300, 310, 320, and 345, 325, 330, 335, 400, 405, 410, and 425 with a C or higher. Credit Hours: 2

NUR435C - Nursing Leadership Internship Clinical This course is the clinical to accompany NUR 435. Students will perform a nursing leadership internship in a real world setting. Students must participate in the wide variety of tasks associated with nurses serving in a leadership role. Sample topics include budgeting and finance, workforce scheduling, and regulation compliance. This course hosts a seminar at the beginning and end of the internship, online coursework, and 64 clinical hours completed with an approved preceptor after the initial seminar and concluded prior to the final semester. Must be taken concurrently with NUR 435. If NUR 435 is dropped, then NUR 435C must be dropped. Restricted to NUR majors that have successfully passed NUR 200, 300, 310, 320, and 345, 325, 330, 335, 400, 405, 410, and 425 with a C or higher. Credit Hours: 1

NUR440 - Seminar Review of Nursing Concepts This seminar is required for all students, excluding those in the RN to BSN track, during the last semester of enrollment. The course offers the opportunity for nursing students to prepare/review for the RN licensing exam (NCLEX). The NCLEX outline is examined, topical sections are elaborated upon and test taking strategies are explored. Students will be required to take mock exams for course assessment and completion. Restricted to NUR majors. Credit Hours: 1

NUR445 - Population-Centered Healthcare This course examines health promotion and primary, secondary, and tertiary prevention as applied to the nursing care of individuals, families, groups, and populations in the community setting. Community assessment utilizes evidence-based practice to develop care planning for at-risk populations. Collaboration with community partners is explored as an essential component in community-focused clinical decision-making. Issues and trends related to public health which include access to resources and delivery of care are addressed as well as political, economic, social, and environmental factors that influence community and global health. Must be taken concurrently with NUR 445C. If NUR 445C is dropped, then NUR 445 must be dropped. Restricted to NUR majors that have successfully passed NUR 200, 300, 310, 320, and 345, 325, 330, 335, 400, 405, 410, and 425 with a C or higher. Lab fee: \$150. Credit Hours: 2

NUR445C - Population Centered Healthcare Clinical This course is the clinical to accompany NUR 445. This course examines health promotion and primary, secondary, and tertiary prevention as applied to the nursing care of individuals, families, groups, and populations in the community setting. Community assessment utilizes evidence-based practice to develop care planning for at-risk populations. Collaboration with community partners is explored as an essential component in community-focused clinical decision-making. Must be taken concurrently with NUR 445. If NUR 445 is dropped, then NUR 445C must be dropped. Restricted to NUR majors that have successfully passed NUR 200, 300, 310, 320, and 345, 325, 330, 335, 400, 405, 410, and 425 with a C or higher. Credit Hours: 1

NUR450 - Complex Care Internship During this internship, students will learn to use professional judgment and effective nursing methods in a variety of acute and chronic conditions seen in the nursing profession. By experiencing end of life situations involving the proper care associated with terminal illness, death and dying, palliative care, as well as psychosocial and spiritual considerations, one will gain a deeper understanding of the ethical decision making processes for treatment. This course hosts a seminar at the beginning and end of the internship, online coursework, with 64 clinical hours completed with an approved preceptor after the initial seminar and concluded prior to the final seminar. Must be taken concurrently with NUR 450C. If NUR 450C is dropped, then NUR 450 must be dropped. Restricted to NUR majors that have successfully passed NUR 200, 300, 310, 320, and 345, 325, 330, 335, 400, 405, 410, and 425 with a C or higher. Credit Hours: 2

NUR450C - Complex Care Internship Clinical This course is the clinical to accompany NUR 450. During this internship, students will learn to use professional judgment and effective nursing methods in a variety of acute and chronic conditions seen in the nursing profession. By experiencing end of life situations involving the proper care associated with terminal illness, death and dying, palliative care, as well as psychosocial and spiritual considerations, one will gain a deeper understanding of the ethical

decision making processes for treatment. This course hosts a seminar at the beginning and end of the internship, online coursework, with 64 clinical hours completed with an approved preceptor after the initial seminar and concluded prior to the final seminar. Must be taken concurrently with NUR 450. If NUR 450 is dropped, then NUR 450C must be dropped. Restricted to NUR majors that have successfully passed NUR 200, 300, 310, 320, and 345, 325, 330, 335, 400, 405, 410, and 425 with a C or higher. Credit Hours: 1

NUR455 - Integrated Seminar in Nursing Integrated Seminar in Nursing (Capstone Course). This seminar focuses on current issues associated with the nursing field and healthcare in general. Political policy, cultural issues, and ethical considerations are integrated into the professional caregiver, teacher and client care manager roles. Restricted to NUR majors. Credit Hours: 2

Nursing Faculty

Blumenstock, Erica, Assistant Professor, DNP, MSN, McKendree University, 2020.

Brown, Heather, Assistant Lecturer, MSN, Western Governors University, 2021.

McNitt, Nancy., Assistant Lecturer, MSN, FNP, Southeast Missouri State University, 2013.

Penrod, Debra., Assistant Professor, DNP, MSN, American Sentinel University, 2018.

Whittington, Kelli D., Assistant Professor, Ph.D., MSN, CNE, Southern Illinois University Carbondale, 2014.

Wilson, Destiney, Nursing Simulation Lab Coordinator, MSN, Western Governors University, 2024.
